

Burrito Pillowcase 101

Materials Needed:

- 1- 27x36 piece of fabric
- 1- 12x36 piece of fabric
- 1- 2x36 piece of fabric
- Coordinating thread
- Sewing machine

Step #1 – Place the 12x36 piece of fabric right side up, place the 2” pieces of fabric folded in half on top of the cuff piece and align the raw edges, place the 27x36 right side down aligning it with the other two pieces of fabric on raw edges.

Step #2 – Starting at the bottom, roll the main piece of fabric into a burrito (tube), stop rolling the fabric about half way onto the 12x36 cuff piece.

Step #3 – Take the layered cuff piece and bring it over the burrito. Align with the raw edges of the main fabric (right sides together) and pin all layers together. Sew or serge a ¼" seam allowance along the pinned edge to form a tube.

Step #4 – Flip the fabric from inside the tube, pulling out all the fabric right side. Then, lay the pillowcase flat.

Step #5 – Fold the pillowcase right sides together and sew the raw edge bottom and side, put the pillowcase right sides together and finish sewing the sides. Turn the pillowcase wrong side out to poke corners and press. Sew to have a nice finished edge look. Then turn right sides out.
